with the Fourth International Conference on Multi Agent Systems (ICMAS-2000) held in Boston in July 2000.

The purpose of MABS-2000 was to investigate and develop the synergy - tween software engineering for multi-agent systems and agent-based social simulation. The papers included in the

were selected either
because they explore
how agent interaction
can be used to build
multi-agent systems or
they offer examples of
problem-oriented (rather

systems. No paper was
selected if it specified a
model or an issue to
make it fit a previously
chosen technique. All of

Issues raised and positions taken in those discussions are reported in the editorial introduction. We are also grateful to the authors for their punctuality and the
