The most common problem with Yamaha golf carts is with the battery. Yamaha uses rechargeable, acid-based batteries in its golf carts. If your battery is giving you trouble, make sure the terminals are clean and secure. You can use a mixture of water and baking soda to clean them. Next, check the water level in the battery and make sure distilled water is covering its plates. The meter in your ...

## Yamaha YZF-R1 1998-2003

A step-by-step guide to building a Buggy, containing details of equipment and techniques, as well as guidance on the choice of donor car and new components. Build any VW-based Dune Buggy avoiding common pitfalls and expensive mistakes, ending up with a superb, roadworthy multi-purpose vehicle.

A completely reworked and much enlarged (by over 60 pages) book based on Des Hammill's much respected earlier work on how to get more power from the A-Series engine. The complete practical guide to modifying the 1275cc A-Series engine for high-performance with reliability, and without wasting money on parts or modifications that don't work. Explains how many original components - sometimes modified - can be used in high-performance applications.

Millions of cars were equipped with SU carburetors. This book is for those people who wish to tune SU carburetors themselves, irrespective of how many carburetors there are on the engine or what type of engine it is you are dealing with.

Each Clymer manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine. This manual covers the Harley-Davidson XL Sportster built from 2014 to 2017. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. Specific models covered include: XL883L SuperLow (2014-2017), XL883N Iron 883 (2014-2017), XL883R Roadster (2014-2015), XL1200C 1200 Custom (2014-2017), XL1200CA Custom Limited A (2014-2016), XL1200CB 1200 Custom Limited B (2014-2017), XL1200CP 1200 Custom (factory custom) (2014-2016), XL1200CX Roadster (2016-2017), XL1200T SuperLow (2014-2017), XL1200V Seventy-Two (2014-2016), and XL1200X Forty-Eight (2014-2017).

The Yamaha FS1-E is a 1970s icon. Introduced in the early 70s, it became an instant success, giving sixteen year olds their first taste of motorcycle performance and freedom, and totally overshadowing the other mopeds available at that time. Many riders had their FS1-E for only one year before progressing to larger machines. Today, nostalgia for the youthful exuberance engendered by the 'Fizzie' has resulted in many ex-owners wanting to recreate their pride and joy. Most FS1E's have not endured the test of time well, and very few good original examples exist. There are plenty of restorable machines around and this book guides the do-it-yourself restorer through the minefield of initially finding a machine to restore and the pitfalls of a first restoration.

"Covering all aspects of nitrous oxide systems, from assessing suitability and choosing a system, through to installation and maintenance, this book presents facts, illustrated with 150 colour photographs, written in the clear Speed Pro style, and is useful for anyone considering installing a nitrous oxide system"--Publisher web site.

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more.

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.
