Knowledge Test (AKT). The subject matter is divided between critical appraisal and evidence-based clinical practice components, which make up approximately 10% of the questions; 10% will comprise health informatics and administrative questions, with the remaining 80% clinical questions. Questions are of the

~~MRCGP Applied Knowledge Test 1001 Questions and Answers~~

General practice is a very broad subject and quite different to the hospital medicine that you are used to. It does have clear cut content, but there is no definitive study guide, the MCQ books on the market are not written by AKT question setters and the real examiners approach general practice and the AKT from many different angles.

~~AKT – Bradford VTS~~

for each AKT to sample widely across the curriculum. There will be questions on conditions that are seen frequently in general practice (e.g. asthma) but also on rarer but important topics (e.g. meningitis) which every GP would be expected to recognise and know how to manage. Level of detail

~~Passmedicine~~

Meta analysis is a popular subject in the AKT exam. You are guaranteed to get one or two questions about meta-analysis therefore lets spend some time to understand the concept and interpretation of meta-analysis. What is meta-analysis Meta-analysis is a statistical technique for combining the findings from independent studies.
