Many arts based researchers combine their art with story, the art part creates moods and images combined with writing which is better at directing emotion. In many cases published words are used more to explain the art rather than enhance the emotional mood, others combine evocative pictures and words. arts based autoethnography can use evocative stories along with evocative images.

~~Autoethnography and Arts Based Research~~
Autoethnography is typically defined as an
approach to research that puts the self at
the center of cultural analysis. Chang (2008)
asserts that autoethnography “transcends mere
narration of self to engage in cultural
analysis and interpretation” (p. 43).
