uniden bearcat scanner problems? I have a uniden bearcat 16 channel scanning radio, but recently all channels have been lost. It wont pick anything up, how do i reprogram it or find the codes to do it? Answer Save. 2 Answers. Relevance. Anonymous. 1 decade ago. Favorite Answer.

uniden bearcat scanner problems? | Yahoo Answers

The first thing I tell callers when they say their scanner is dead is to try the local weather channels. Almost everyone is in range of one of the National Weather Service radio stations on 162.400 thru 162.550. If you try each of the 7 channels (listed below) and nothing is heard then there may well be something wrong with the radio.

Basic Troubleshooting - How to fix a silent scanner ...

A: To program this scanner manually, you will first want to make sure that everything is deleted out of it first, like the preprogrammed states such as Alaska. To do this you will want to turn off the scanner. While it is turned off you will push in and hold in the 2, 9, and Hold keys. Continue holding these down while you power on unit.
