"the clearest explanation to date for younger readers of the numerical sequence that is found throughout nature and still bears his name." — Booklist

Blockhead: The Life of Fibonacci — Joseph D'Agnese

He was such a daydreamer that people called him a blockhead. When Leonardo grew up and traveled the world, he was inspired by the numbers used in different countries. Then he realized that many things in nature, from the number of petals on a flower to the spiral of a nautilus shell, seem to follow a certain pattern.
