Book of Names - The Skulduggery Pleasant Wiki

"Shanara decides to reveal her history to Score, Helaine, Pixel and Jenna in her own unique way -- by creating a realistic illusion from her memories. But a powerful sorcerer hijacks her spell and transports the five of them back into the past instead. Now instead of seeing Shanara's troubled story, they are forced to live it. But if they change anything -- anything at all -- they might wipe out the future ... including themselves"--Page 3 of cover.
--

Score, Renald, and Pixel are snatched from different worlds and taken by Bestials to the planet Treen, where they are to be offered as a sacrifice.

Abandoned on an alien planet, a young woman gains remarkable powers from a mysterious artifact, in the first installment of a sprawling, unforgettable science fiction saga. A magnificent combination of space opera and epic fantasy quest in the beloved science fantasy tradition of Andre Norton and C. J. Cherryh, author Jo Clayton's masterful Diadem Saga begins with an unforgettable tale of destiny, self-discovery, survival, and an extraordinary young woman's coming of age in a world that is not her own. Raised, but never loved, by the barbarian valley people of Jaydugar, a planet of two suns, young Aleytys has always known she did not belong. Abandoned by her space-traveling mother and barely tolerated by a superstitious primitive tribe fearful of divine reprisals, Aleytys is forced to flee for her life following the catastrophic appearance of a fireball in the sky. Guided by her absent mother's journals, the young outcast must now journey alone across an unfamiliar world of perils in search of an escape from this planet that holds no hope for her future. But her pursuit of a spacecraft and the parent who inexplicably left her behind leads young Aleytys instead to the miraculous device that will determine her destiny. An object of unimaginable power;a magical technology stolen from a vengeful alien arachnid race determined to recover it at any cost;the Diadem instantly becomes an integral part of who and what Aleytys is and will be. Once its great energy is transferred to her she will never be free of it, and mastering the Diadem's wonders is Aleytys's only hope for survival now that she has become the most wanted woman in a dangerous universe. In an astonishing feat of science fiction world-building and quest fantasy storytelling that rivals the classic works of Mercedes Lackey, Anne McCaffrey, and Marion Zimmer Bradley, Clayton opens wide the portals into a magnificent galaxy of marvels and terrors with Diadem from the Stars, ushering speculative fiction fans into an unforgettable universe and series.

Savage barbarians enslave Aleytys, the wearer of the Diadem, as she sails the stars in her quest to find her truth and her history in this science fiction adventure. The second book in author Jo Clayton's phenomenal Diadem science fiction space opera series continues the adventures of Aleytys, blessed and cursed by an alien power that has both marked and altered her, as she crosses the galaxy on an epic fantasy quest that rivals anything imagined by Andre Norton or C. J. Cherryh. When she donned the Diadem, Aleytys was changed forever. An artifact of tremendous power, it has given her psychic abilities beyond her comprehension or complete control, while making her a target of the distant, dangerous alien race that created it. However, survival for herself and her infant son is Aleytys's first priority as she searches for a home and a history. Her quest has brought her to the barbarous planet Lamarchos, where she intends to aid her companions;the thief Miks Stavver, the native Kale, and the psychotic criminal mastermind Maissa;in the theft of a valuable cache of powerful poaku stones. Moving across the perilous alien landscape in the guise of a mystical healer, Aleytys cannot help but attract the attention of the local gods, who expect her to do their bidding. But neither godly intervention nor the Diadem's awesome power can prevent the treacherous betrayal that will leave Aleytys stranded on this wild and dangerous planet;or save her from capture by the terrible zombie-like horde bringing chaos and horror to their world. Ingeniously melding science fiction space opera with fantastic invention, alien worlds and technologies with epic quest adventure, Clayton has created a unique universe of wonders and terrors. With her extraordinary Diadem Saga, she joins such acclaimed masters as Anne McCaffrey, Mercedes Lackey, and Marion Zimmer Bradley in the pantheon of speculative fiction's most revered science fantasists.

Dashing soldier of fortune Major Valentine Strange, late of the Emperor of Alba's 21st Regiment of Benhali Lancers, is hired by Brahman Ehimay Warrick to find a legendary diadem reputedly hidden in a lost monastery somewhere deep in the distant, snowy mountains of Hidush. To ensure Strangel's success in this quest vital to the future of the politically unstable Hidush, the powerful Holy Orders designate Master Aleister Grimshaw, a powerful young witch with his own history of instability;political and other;to accompany the dashing major. But long before Strange and the unwilling Grimshaw reach the tea bushes of the foothills and the lost city of Nagara, they realize there are forces both natural and unnatural at work to stop them from ever achieving their objective. Their only chance for success relies on each other and their tentative friendship;as does their only hope for survival.

Maeb Langtofte is lucky to have a position in the household of the Earl of Pengraic;one of the most powerful men in England, whose holdings rival King Edmond's. She is lucky that his wife, Adelle, whom Maeb serves, is kind and pious (unlike the Earl, whom Maeb finds dark and secretive). But when word arrives that a plague is sweeping through Europe like a human wildfire, everyone in the Earl's household is put on edge. It is whispered that victims of this plague are spontaneously engulfed in flames;as if the flames of Hell had suddenly leapt up to claim them and the Devil himself is to blame. As the disease spreads into England, so too does civil unrest. King Edmond calls his lords and their armies to return to London, and the Earl obeys, leaving Maeb and his family unprotected. It turns out that the Earl has been hiding more than state secrets, and that his family is at risk of losing not only their lives but also their souls. To her horror, Maeb will learn that the Devil himself may have arrived on her doorstep. And worse, what he demands may be running through her very veins.

The young magic-users travel to Dondar, home of Garonath, the unfriendly wizard of forms and Sarman, the evil magician who wants to rule the Diadem and needs their souls to accomplish his mission. Reprint.

Marry Me is subtitled  ▯A Romance ▯ because, in the author's words,  ▯people don't act like that anymore. ▯ The time is 1962, and the place is a fiefdom of Camelot called Greenwood, Connecticut. Jerry Conant and Sally Mathias are in love and want to get married, though they already are married to others. A diadem of five symmetrical chapters describes the course of their affair as it flickers off and on, and as their spouses react, in a tentative late-summer atmosphere of almost-last chances. For this is, as Jerry observes,  ▯the twilight of the old morality, and there's just enough to torment us, and not enough to hold us in. ▯

Haunted by nightmares about the brutal murder of his older sister Penny, Matt Howard is confronted by a mysterious girl who wanders around the local graveyard, claiming that she is Penny and seeking revenge for her death. Original.

This fast-paced, gritty space adventure introduces the unforgettable Skeen, a hard-edged heroine and intergalactic thief trapped in an unknown universe. Jo Clayton, creator of the popular Diadem Saga, introduces a delightfully unforgettable new character;a tough, sexy, futuristic tomb raider Lara Croft with issues;and sets her loose in a wild and woolly galaxy of dastardly villains, alien shape-shifters, and all manner of strange sentient life-forms. Skeen is a bandit and a rogue, a master thief wanted throughout myriad solar systems for plundering the rare antiquities of countless alien civilizations while always keeping one rocket ship;length ahead of the intergalactic law. A ;rooner; with a dark past, she now finds herself penniless and abandoned on a miserable backwater planet, at the tail end of a string of very bad luck, with no option except to follow unreliable rumors to a supposed fortune in gems hidden among ancient ruins. What she finds instead is a gateway into another world;and a universe of trouble. Now, trapped in a strange new reality with no way out, Skeen must find the key to reopening the portal, and that will entail making contact with the mysterious aliens who created the interdimensional passageway. But the enigmatic Ykx vanished eons ago, and finding representatives of a highly advanced and possibly extinct extraterrestrial race is not going to be easy for the silver-tongued lone wolf outlaw. It doesn't help that Skeen's entourage keeps expanding by leaps and bounds with unwanted hangers-on whose interference could end up damning her to an eternity in nowhere. The first book in a thrilling trilogy featuring the inimitable Skeen, Skeen's Leap cements Clayton's well-deserved reputation as one of the premier purveyors of science fantasy, alongside Andre Norton, C. J. Cherryh, and Marion Zimmer Bradley. Wry, witty, and wondrously inventive, featuring a colorful cast of delightful and deliciously weird alien types, it is a space opera romp guaranteed to transport genre aficionados to new and wondrous worlds.
