"It was the best of times. It was the worst of times." The famous open ing sentence ofCharles Dickens' Tale of Two Cities can serve as a motto to characterize the mixture of optimism and pessimism with which a large number of nineteenth-century intellectuals viewed the con dition of their age. It is nowadays hardly necessary to accentuate the optimistic elements in the nineteenth-century view of history; many recent historians have sharply contrasted the complacency and the great expectations of the past century with the fears and anxieties rampant in our own age. It is often too readily assumed that a hundred years ago all leading thinkers as well as the educated public were addicted to the cult of progress and ignored or minimized those trends of their times that paved the way for the catastrophes of the twentieth century. In the nineteenth century the intoxicating triumphs of modern science undeniably induced the general public to believe that pro gress was not an accident but a necessity and that evil and immo rality would gradually disappear. Yet fears, misgivings, and anxieties were not as exceptional in the nineteenth century as is often imagined. Such feelings were not restricted to a few dissenting philosphers and poets like Schopenhauer, Kierkegaard, Dostoevsky, Baudelaire, and Nietzsche.

Learn how to be a leader from one of sports' greatest teachers, Rick Pitino. As Rick Pitino says, great leaders aren't born great; they learn great leadership along the path of life. From the time Pitino first became a coach at twenty-four, he has been a student of leadership in all its forms, studying how great leaders from legendary coaches to American presidents to world humanitarians are able to inspire and motivate others. He discovered that all leaders, on the court and off, in business, politics, or civil rights, have certain qualities in common; these leaders share key traits that make people want to listen to them and follow them. Now, in Lead to Succeed, Rick Pitino shares the ten traits of great leadership he discovered and has cultivated in himself, and shows readers how they, too, can become leaders in their business and personal lives. As the former coach of the Kentucky Wildcats who turned the team around from probation status to a 1996 NCAA championship, Pitino relates stories of this experience, and other leadership lessons from his career. When Rick Pitino joined the Boston Celtics in 1997, he took on the biggest challenge of his professional life, becoming not only head coach but also president of the Celtics. In addition to coaching professional athletes with multimillion-dollar contracts, he was assuming a leadership role of an organization saddled with salary cap problems, limited talent, misfortune in the draft lottery, and bombarded by adversity on all sides. Facing these adversities, Pitino has relied on a leadership strategy based on his years of learning from leaders around him and from his own mistakes and successes. Leading isn't about being a dictator; nor is it about people-pleasing. As Pitino shows in Lead to Succeed, leadership is about communication, consistency, and selflessness. In addition to illustrating how these traits apply in a variety of business situations, Pitino addresses these issues: How you can be an effective business leader and still be honest When it's best not to delegate How the past can hurt you How to get your team out of a slump While Pitino has had great success with his players, he has also convinced thousands of people in companies across America that his leadership message applies in the workplace as well. Lead to Succeed is for anyone who wants to inspire and motivate others--be it your employees or colleagues, or members of an organization you belong to, or your family. A perfect book for executives, managers, and sports fans, Lead to Succeed can make great leadership within reach.

Rakesh plants a cherry seedling in his garden and watches it grow. This beautifully illustrated edition brings alive the magical charm of one of Ruskin Bond ' s most unforgettable tales.
