Practice Parameters (now discontinued), authored by topic experts and the CQI, were intended to inform the practice of child and adolescent psychiatry in a wide variety of topic areas. By standard convention, Practice Parameters become outdated after 5 years , as they have not been updated to reflect current knowledge and practice, and as such should be accessed for historical purposes only.

~~Practiee Parameters~~

We strongly encourage developmental scientists and researchers from allied disciplines to bring their work to the attention of Child and Adolescent Psychiatry. In particular, we emphasize the value of longitudinal studies for increasing understanding of the development of psychiatric disorders, especially the new generation of longitudinal studies that incorporate conventional or high-throughput molecular genetics.
