Social Structures and Human Lives consists of papers from the 1986 American Sociological Association annual meeting selected to reflect the rich and diverse array of conceptual, methodological, and substantive reports presented there. Leading academics and researchers in the field offer information about aging over the life course; the relationship between aging and the changing structure of families, firms, state, and society as a whole; and implications for equality of opportunity for people of differing age, gender, race and socioeconomic status. A final chapter links selected topics from previous chapters to established sociological concerns and clarifies the broad scope of the book's central the

How Cool Brands Stay Hot reveals what drives Generation Y, the most marketing savvy and advertising-critical generation, and how you can develop the right brand strategies to reach this group which, at three times the size of Generation X, has a big impact on society and business. Packed with qualitative and quantitative research plus creative ideas on how to position, develop and promote brands to the new consumer generation, it explains the five crucial steps or dimensions on how to stay a cool youngster brand. The first edition of How Cool Brands Stay Hot won the prestigious 2012 Berry-AMA Book Prize for the best book in marketing and Expert Marketer's Marketing Book of the Year 2011. The second edition of Independent and Supplementary Prescribing builds on the success of this classic text by providing a unique resource for prescribing and medicines management for both new and experienced prescribers. This is an essential resource for anyone undertaking the non-medical prescribing programme. The book explores a number of key areas for prescribers, including the ethical and legal issues surrounding prescribing, prescribing within a public health context, evidence-based prescribing, basic pharmacology, medication safety, monitoring skills and drug calculations. Each chapter has been updated for the second edition and an additional chapter 'Minimising the risk of prescribing error' has been added. Written by a group of multi-professional authors working at all stages of the medication management process, this book will be essential reading for all nurses, midwives, pharmacists and allied health professionals qualified to prescribe as independent and/or supplementary prescribers.
