Most children grow into self-love, but nowadays, it is not made easy, as more children experience bullying at much younger ages. What do you do when you simply want to shine just as you are? You find a way! That's exactly what author and former America's Next Top Model contestant Erin Green had to do as a child. In this beautifully illustrated, easy reader book, main character Sasha is learning to strut in her confidence. Unfortunately, for her, she experiences bullying when all she really wants to do is express herself. Throughout the story, with kindness and affirmations, she understands just how great she truly is. This mommy and me book tells a story of a supportive momma who always encourages her daughter to hold her head high and face her fears. Sasha quickly finds herself using aisles, hallways, and even sidewalks as her own personal runway as she grows into the best version of herself. If you are looking for a diverse book that promotes self-love, look no further - you've found it! Grab your copy for the special child in your life or for your favorite teacher's classroom library.

GU-ITIS is a compilation of expert creativity and opinion based upon critical review of the literature, consensus reports and the author's professional experience. Inflammation and pain caused by infectious etiologies are presented by experts in urological and gastrointestinal fields. Pain syndromes specific to the pelvic floor or genitourinary system are discussed from several perspectives. The book also includes chapters addressing iatrogenic causes of GU inflammation. Management by means of pharmacological, surgical or alternative methods are likewise presented within the context of specific disease entities, as well as separate therapeutic chapters.

This book presents the refereed proceedings of the 12th Annual International Computing and Combinatorics Conference, COCOON 2006, held in Taipei, Taiwan, August 2006. The book offers 52 revised full papers presented together with abstracts of 2 invited talks. The papers are organized in topical sections on computational economics, finance, and management, graph algorithms, computational complexity and computability, quantum computing, computational biology and medicine, computational geometry, graph theory, and more.

This book fulfils the need for a general urology text primarily urologists in training. It has a novel format by having a clinical chapter always preceded by a scientific foundation chapter. The scientific chapter is geared toward answering questions for boards and understanding pathophysiology, is concise and relevant. The clinical chapter is written around evidence-based medicine and in "how-to" format with algorithms, with reference to AUA & EAU guidelines, well illustrated.

The heartwarming debut that brought Per Petterson, the author of the highly acclaimed Out Stealing Horses, to prominence Young Arvid Jansen lives on the outskirts of Oslo. It's the early sixties; his father works in a shoe factory and his Danish mother works as a cleaner. Arvid has nightmares about crocodiles and still wets his bed at night, but slowly he begins to understand the world around him. Vivid images accompany each new event: A photo of his mother as a young woman makes him cry as he realizes how time passes, and the black car that comes to collect his father on the day Arvid's grandfather dies reminds him of the passing of his bullfinch. And then, one morning, his teacher tells his class to pray because a nuclear war is looming. Ashes in My Mouth, Sand in My Shoes, Per Petterson's debut, in which he introduces Arvid Jansen to the world, is a delicate portrait of childhood in all its complexity, wonder, and confusion that will delight fans of Out Stealing Horses and new readers alike.

A terrarium is nothing less than a miniature world—one that you can create yourself. It might be a tiny rainforest, with lush foliage and bright tropical flowers. Or a desert, with strange succulents planted among colorful stones. Or a Victorian fernery. Or a minimalist composition with a single, perfect plant. Or it might not contain any plants at all. It might be made with crystals, feathers, bones, seashells, bits of wood, porcelain trinkets—anything that catches your fancy and helps create a mood or look. Whatever they contain, terrariums are the ultimate in modern, affordable, easy-care décor. Terrarium Craft features fifty original designs that you can re-create or use as inspiration for your own design. Each entry comes with clear step-by-step directions on how to assemble and care for your terrarium. You'll also find helpful information about selecting a container, using appropriate materials, choosing the right plants, and maintaining your terrarium. (Hint: It's easy! In fact, many terrariums are self-sustaining, requiring no maintenance whatsoever!)
