Trampeo y otras técnicas de caza utilizadas en España desde hace miles de años para cazar todo tipo de animales de nuestra fauna cinegética

Developing and maintaining a disciplined management system provides any organization with a blueprint for exceptional performance and success. Indeed, for larger multinational corporations, a management system is a critical component for sustainable growth and performance management. In this book, the authors discuss a series of fundamentals for creating an operationally excellent management system (OEMS). The book also examines the business performance impact of an OEMS across leading gas and oil organizations, such as Exxon Mobil, BP, Suncor, and Chevron. In 7 Fundamentals of an Operationally Excellent Management System, the authors discuss each fundamental in detail and provide the supporting training and workshop materials that are essential for integrating these fundamentals into the business processes of the organization. The seven fundamentals identified by the authors provide a sequential approach for developing and executing an OEMS across any organization. Integrating sound organizational and business practices with personnel and process safety management principles, the book is an invaluable resource for organizations seeking operational discipline and excellence. Well-supported with graphics and practical examples, the book provides a simple pathway for an organization to evolve its management system into an OEMS designed to reduce workplace incidents and improve business performance on a sustainable basis. The management system principles discussed in the book are intended for the business leader who is motivated to transition his or her organization from ordinary, through best in class, to an organization of world-class stature and performance.

"La presente obra no es un libro cinegético al uso, es mucho más. Junto al relato de los autores sobre alguna jornada cinegética, algo muy propio de la literatura cinegética, el lector encontrará abundante información legal, técnica, económica, institucional e incluso culinaria sobre una modalidad que es mucho más que caza, es también cultura, historia e incluso, para algunos, una forma de vida".

The most comprehensive guide on trapping and hunting ever compiled!

Al consultar este Diccionario de palabras para andar por casa, la primera consideración que se le ofrece al lector es la ingente variedad léxica de la lengua española. Uno de los últimos y cada vez más escasos dialectólogos, el maestro Manuel Alvar, al referirse a esta riqueza de manifestaciones dialectales la calificaba como diferenciación y a su localización, estructuración, estudio y magisterio orienta en gran medida su investigación. De ahí que al encontrarnos con trabajos como el presente, sintamos la satisfacción de comprobar que el interés por el estudio de las hablas populares sigue inquietando a algunos de nuestros filólogos. El caudal léxico recogido en los lugares donde se documenta, Huelva y su provincia, localidades que, sin jerarquizar posibilidades geográficas, se manifiesta doblemente interesante por su emplazamiento y la vecindad de distintas manifestaciones de hablas. En él se acusa relevantemente el fenómeno lingüístico de las áreas con sus dinámicas difusoras y conservadoras, propio de las lenguas en contacto, fronterizas: sus límites entre otros, con Portugal y Extremadura le confieren un especial interés.
