The First Responders Children's Foundation COVID-19 Emergency Response Fund was established in March, 2020 to provide financial hardship grants, PPE, and hotel accommodations to first responders on the front lines of the pandemic. The Foundation also pays for funerals of first responders who have made the ultimate sacrifice.

First Responder Finance\$ was written to address the unique needs of public sector safety professionals. It recommends financial tasks based on career status and progression. It addresses personal financial planning, income tax planning, saving and investing, insurance, cash flow management and integration of social security and public sector pensions.

The National Wildfire Coordinating Group provides national leadership to enable interoperable wildland fire operations among federal, state, local, tribal, and territorial partners. Primary objectives include: Establish national interagency wildland fire operations standards; Recognize that the decision to adopt standards is made independently by the NWCG members and communicated through their respective directives systems; Establish wildland fire position standards, qualifications requirements, and performance support capabilities (e.g. training courses, job aids) that enable implementation of NWCG standards; Support the National Cohesive Wildland Fire Management Strategy goals: to restore and maintain resilient landscapes; create fire adapted communities; and respond to wildfires safely and effectively; Establish information technology (IT) capability requirements for wildland fire; and Ensure that all NWCG activities contribute to safe, effective, and coordinated national interagency wildland fire operations. The "NWCG Standards for Interagency Incident Business Management" assists participating agencies of the NWCG to constructively work together to provide effective execution of each agency's incident business management program by establishing procedures for: - Uniform application of regulations on the use of human resources, including classification, payroll, commissary, injury compensation, and travel. - Acquisition of necessary equipment and supplies from appropriate sources in accordance with applicable procurement regulations. - Management and tracking of government property. - Financial coordination with the jurisdictional agency and maintenance of finance, property, procurement, and personnel records, and forms. - Use and coordination of incident business management functions as they relate to sharing of resources among federal, state, and local agencies, including the military. - Documentation and reporting of claims. - Documentation of costs and cost management practices. - Administrative processes for all-hazards incidents.

The objective of this handbook is to make available in a quick reference form, the information to enhance and support the response capabilities of firefighters, emergency medical technicians, hazardous materials response teams, law enforcement officers, bomb squads, medical doctors and nurses, emergency managers, schools, and others. This handbook is dedicated and committed to disaster prevention, preparedness, readiness, response, mitigation and recovery efforts. This is an ideal book for newcomers to the field, and can be used for fast knowledge for application to any areas of response.

Meant to aid State & local emergency managers in their efforts to develop & maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on how to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard-unique planning, & linking Federal & State operations.

Terrorism threats and increased school and workplace violence have always generated headlines, but in recent years, the response to these events has received heightened media scrutiny. Critical Incident Management: A Complete Resource Guide, Second Edition provides evidence-based, tested, and proven methodologies applicable to a host of scenarios that may be encountered in the public and private sector. Filled with tactical direction designed to prevent, contain, manage, and resolve emergencies and critical incidents efficiently and effectively, this volume explores: The phases of a critical incident response and tasks that must be implemented to stabilize the scene Leadership style and techniques required to manage a critical incident successfully The National Incident Management System (NIMS) and the Incident Command System (ICS) Guidelines for responding to hazardous materials and weapons of mass destruction incidents Critical incident stress management for responders Maintaining continuity of business and delivery of products or services in the face of a crisis Roles of high-level personnel in setting policy and direction for the response and recovery efforts Augmented by Seven Critical Tasks™ that have been the industry standard for emergency management and response, the book guides readers through every aspect of a critical incident: from taking initial scene command, to managing resources, to resolution, and finally to recovery and mitigation from the incident. The authors ' company, BowMac Educational Services, Inc., presently conducts five courses certified by the Department of Homeland Security. These hands-on "Simulation Based" Courses will prepare you personnel to handle any unexpected scenario. For additional information contact: 585-624-9500 or johnmcnall@bowmac.com.

Foundations of EMS Systems, Third Edition is an introductory text in the Fire and Emergency Services Higher Education (FESHE) emergency medical services (EMS) series. It provides an overview for students, administrators, government officials, and others who need to know about the emergency medical services system.

This Interagency Threat Assessment and Coordination Group (ITACG) Intelligence Guide for First Responders is designed to assist state, local, tribal law enforcement, firefighting, homeland security, and appropriate private sector personnel in accessing and understanding Federal counterterrorism, homeland security, and weapons of mass destruction intelligence reporting. Most of the information contained in this guide was compiled, derived, and adapted from existing Intelligence Community and open source references. The ITACG consists of state, local, and tribal first responders and federal intelligence analysts from the Department of Homeland Security and the Federal Bureau of Investigation, working at the National Counterterrorism Center (NCTC) to enhance the sharing of federal counterterrorism, homeland security, and weapons of mass destruction information with state, local, and tribal consumers of intelligence.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)
