Go on a Geometry Scavenger Hunt Here's a fun way to help your teen make important connections between geometry in school and geometry in real life, and cross over into the arts at the same time. Using cameras, host a friendly contest between family members or friends to see who can find the most examples of geometry in the real world!

Go on a Geometry Scavenger Hunt | Activity | Education.com

Math Scavenger Hunt for Elementary School The scavenger hunt concept is simple: challenge your students to see who can find the most items from a list. In this case the list contains mathematical concepts such as counting, shapes, or fractions, as seen in everyday components of the real world.

Math Scavenger Hunt - envisionexperience.com

We have used the geometry scavenger hunt many times over the years in different ways and levels. When the kids were just learning their shapes, the goal for them was to recognize shapes in their environment. I might give them a card with a picture of a circle on it and then have them find a circle somewhere in the house or outside in the yard.

Geometry Scavenger Hunt {with FREE printables!}

Math Scavenger Hunt for Middle and High School We suggest focusing on geometry for the scavenger hunt at this age level and increasing the complexity by requiring that the students not simply find examples of geometry in real life, but also be able to articulate how a variety of geometric functions apply to the objects found, and make the related calculations.
