GTK Glade C Programming Tutorial Series - GTK 3 programming with C and Glade tutorial series index. A tutorial series using GTK+ (GIMP Toolkit) with Glade as the GUI designer and the C programming language. GTK 3 Programming with C and Glade Tutorial Series Index

~~GTK Glade C Programming Tutorial | Programmer's Notes~~

In C Language, the GTK is implemented using the GObject (spelled as G-Object), an Object-Oriented framework for the C Language. We use a library like GTK because it makes creating rich GUI easy for us with less coding involved. The library also manages the pixels of the desktop and we don't need to create Widgets manually pixel by pixel. Versions of GTK. There are two versions of the GTK Library, primarily GTK 2 and GTK 3. The latest stable version of GTK is v3.24.23.

~~Introduction to GUI Programming in C using GTK | Hack The ...~~

This time we are going to take look at the GTK Button Widget and learn how to create buttons and provide the functionality to the GTK Buttons in C programming language. A Button is a standard GTK Widget, and supports many features like: You can change the label of the Button Change the appearance of the Button
