Hi, For a VDI project (Virtual Desktop Infrastructure) I am in a position in evaluating EMC products, both controllers and software features (especially on VMWare and Microsoft CIFS / SMB integration) with the new Hitachi storage Systems like HNAS3080, HUS150 and HUS110 arrays and the upcoming new ones. Also their software features like "Hitachi Application Protector", BlueArc® JetClone, and ...

This text is designed to present a comprehensive and state-of-the-art but practical approach to the diagnosis and management of bacterial infection associated renal disease. The chapters address the different types of glomerular, tubulointerstitial and vascular diseases, associated with bacterial infections, describe diagnostic pitfalls, provide differential diagnosis and discuss treatment and management. Easy to follow diagnostic algorithms and tables are included for practical usefulness. The text provides a large number of color microphotographs, illustrations and each chapter refers to the most important up to date literature in the area. All chapters are written by experts in the field and will include the most up-to-date clinical information. A comprehensive but user friendly resource on renal complications of bacterial infection, such as this book, is overdue, particularly now in the era of staphylococcus epidemic and emerging new resistant bacterial strains. Bacterial Infections and the Kidney will be an important resource for pathologists, nephrologists, general internists, infectious disease specialists, and urologists. Transplant surgeons may find the chapter on transplant pyelonephritis very useful.

"This curriculum revision for the post-certification apprenticeship of Computer Numerical Control Programmer is based upon the on-the-job performance objectives, located in the industry approved training standard. The curriculum is organized into 4 reportable subjects. The Program Summary of Reportable Subjects chart summarizes the training hours for each reportable subject. The curriculum identifies only the learning that takes place off-the-job. The in-school program focuses primarily on the theoretical knowledge and the essential skills required to support the performance objectives of the Apprenticeship Training Standards. Employers/Sponsors are expected to extend the apprentice's knowledge and skills are conducted throughout training to ensure that all apprentices have achieved the learning outcomes and content identified in the curriculum standard."--Document.
