Instantly we see that Ken is enchanted with Bruges while Ray loathes the place.

In Bruges (2008) - Plot Summary - IMDb

Martin McDonagh's (Three Billboards Outside Ebbing, MO) brilliant film In Bruges (2008) finds young wannabe gangster Colin Farrell in a state of medieval hell (figuratively and physically, since the medieval town of Bruges is saturated with Bosch-like images of devils, gargoyles, and tortured souls), as a result of a botched murder of an adult Catholic priest that also kills a 6-year old child.

In Bruges is a wildly imperfect feature debut, but it does make you curious to see what else McDonagh has to offer. Full Review. Chris Kaltenbach Baltimore Sun. December 14, 2014 ...

You might be asking 'Where IS Bruges?' Well; it is in Belgium, and the filming of the city is absolutely breathtaking. If you enjoyed nothing else about this film, you would still really appreciate the beautiful views of the ancient buildings and canals. It follows two hitmen, Ray (Colin Farrell) and Ken (Brendan Gleeson) who are forced to hideout in Bruges after Ray accidentally kills a child during a hit. Whilst they are meant to be keeping a low profile and waiting for their boss (Ralph Fiennes) to call, Ray's tempestuous nature and a crew of bizarre misfit characters make this an impossible task. Farrell and Gleeson are comically opposed characters, offering much in the way of snappy, funny dialogue, which is only complimented by the appearance of Fiennes as their no nonsense, foul mouthed boss. The direction makes much use of the spectacular backdrop that Bruges provides, and Farrell in particular delivers an entertaining performance along with the rest of the cast.

The only thing worse than being a Hunter in the fae-ridden city of Harborsmouth, is hunting vamps in Bruges. Being shipped off to Belgium sucks. The medieval city of Bruges is quaint, but the local Hunters' Guild is understaffed, the canals are choked with dead bodies, and there's no shortage of supernatural predators as likely suspects. On second thought, maybe Bruges isn't so bad after all. With a desire to prove herself, protect the innocent, and advance within the ranks of the Hunters' Guild, Jenna Lehane hits the cobbled streets of Bruges with blades at the ready. Someone, or something, is murdering tourists and dumping their bodies in the city's scenic canals. With the help of a mysterious stranger, Jenna begins to piece together clues that are dotted throughout the city like blood spatter. Determined to stop the killings, Jenna delves into a bloody local history that only raises more questions--but some secrets are best left buried. Jenna must put her combat training to the test as she struggles to unearth the truth about an ancient enemy. "Hunting in Bruges" is the first novel in the Hunters' Guild urban fantasy series set in the world of Ivy Granger.

This book is the first to explore the origins and nature of the demand for painting in Bruges over the course of the fifteenth century and its subsequent effect on the community of painters and their workshop and marketing practices. The evolution of Bruges was fundamentally linked with commerce, and as a result of the city's thriving international trade and rising merchant class, it was to become one of the most affluent and cosmopolitan centers in late medieval Europe. However, only after the Duke of Burgundy moved his court to Bruges in the early decades of the fifteenth century would it begin to be a major center for the production of panel painting. This study examines the coming together of the opulent Burgundian court, an affluent urban bourgeoisie, and an increasingly expanding community of painters, and the effects of this dynamic social configuration on the newly emerging art of oil painting. Specifically, Wilson argues that while the nobility were not particularly active as patrons of paintings, members of the urban patriciate who hoped to enter into the circle of the court were nevertheless influenced by the nobility's culture of display and found that paintings effectively served their needs for representations of their aspirations for social advancement. She further suggests that, in commissioning altarpieces for ecclesiastical interiors, patrons were also concerned to include their portraits and coats of arms in an effort to promote the status and prestige associated with their families. The demand for paintings was therefore to escalate throughout the fifteenth century, resulting in painters' increasing involvement in the reproduction of popular compositions and the eventual emergence of a mass market for their art.

Christine de Pizan composed her famous defense of women, Le Livre de la Cité des Dames, as a response to the misogynistic writings of the time. She used the allegorical form to present the life and deeds of virtuous women as the metaphorical building blocks for the City of Ladies. In 1475, some forty-five years after Christine's death, Jan de Baenst, a descendant of a prominent Bruges family, ordered a translation. Het Bouc van de Stede der Vrouwen is the only Middle Dutch translation of a work by Christine de Pizan and it has survived in only one manuscript. Christine de Pizan in Bruges tells the story of this unique codex by focusing on the background of the commissioner, the codicological aspects, the highly original but unfinished illumination program - the 41 miniatures executed are reproduced here in full colour - and the translator's personal epilogue.

Five centuries ago, Bruges was home to the Flemish Primitives. At the time, Bruges was one of the most important cities in Europe: an international centre of trade and meeting place for foreign merchants. It is this medieval Bruges through which we are guided by Till-Holger Borchert, director of the Bruges Museums. The wealth of the city and its art-loving inhabitants attracted dozens of artists. The pioneers among the so-called Flemish Primitives - Jan van Eyck, Hans Memling, Dieric Bouts, Hugo van der Goes and Gerard David - developed a new style of painting over the course of the fifteenth century that would make its influence felt as far as southern Europe. Although many of their paintings now hang among the masterpieces of the world's most prominent museums, Bruges was nevertheless able to hold on to a number of dazzling specimens of its own heritage. This book allows you to take that heritage home. It is the perfect introduction for those who would like to become better acquainted with the artistic Bruges of the fifteenth century, as well as a splendid souvenir for anyone who has admired the Flemish Primitives in the city's main museums. Publisher Description

This volume gathers studies and documentation on Bonaventura Vulcanius, a versatile philologist and writer who in 1581 settled in Leiden as a Professor of Greek and Latin. It includes many unpublished texts pertaining to this mysterious figure Dutch Humanism.

Bruges was undoubtedly one of the most important cities in medieval Europe. Bringing together specialists from both archaeology and history, this 'total' history presents an integrated view of the city's history from its very beginnings, tracing its astonishing expansion through to its subsequent decline in the sixteenth century. The authors' analysis of its commercial growth, industrial production, socio-political changes, and cultural creativity is grounded in an understanding of the city's structure, its landscape and its built environment. More than just a biography of a city, this book places Bruges within a wider network of urban and rural development and its history in a comparative framework, thereby offering new insights into the nature of a metropolis.

From the author of The Billionaire's Secrets, Midnight in Venice and Falling for Rain, a heartfelt, witty and heartwarming short story for the holiday season, set in one of Europe's most enchanting cities..
