The first International Handbook of Educational Leadership and Administration (Leithwood et al.) was published in 1996 and quickly became something of a best seller for reference works within education. Such success, we suggest, was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980's, combined with a widespread belief in leadership as the single most powerful contribution to such improvement.

The Wiley International Handbook of Educational Leadership ...

This chapter explores educational leadership in Canada by first attempting to define the term "leadership". As both a local and national phenomenon, Canadian educational leadership has contributed to development of major economic, political, and social changes in this new millennium. The chapter begins this exploration with a discussion grounded in the conceptual framework known as "The Five Contexts".
