Josephine Horne ignores convention. She never intends to marry, so why should she be hedged about with rules? When loyalty to a friend demands Jo risk her own reputation, she doesn't hesitate. Then she meets handsome Harry Beverley, and her ideas about marriage begin to change.... Hal must marry for duty, and already has a respectable bride in mind. His attraction to the unruly, rebellious Miss Horne is ridiculous! Both Hal and Jo have a lesson to learn—and Christmas is the season of forgiveness and love!

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

A tractor repair manual written for the experienced mechanic by professionals in an easy-to-use format , including numerous photos, illustrations and exploded views.

There is an increasing awareness that access to financial services can contribute to economic growth and poverty reduction. This study focuses on the delivery of financial services in Brazil, one of the world's most important emerging financial markets. It examines different aspects of financial service provision, and explores approaches to address problems of financial exclusion. Topics discussed include: microfinance schemes; private banking; rural finance systems; institutional infrastructure; and the role of government policy.

If health policy truly seeks to improve population health and reduce health disparities, addressing homelessness must be a priority. Homelessness is a public health problem. Nearly a decade after the great recession of 2008, homelessness rates are once again rising across the United States, with the number of persons experiencing homelessness surpassing the number of individuals suffering from opioid use disorders annually. Homelessness presents serious adverse consequences for physical and mental health, and ultimately worsens health disparities for already at-risk low-income and minority populations. While some state-level policies have been implemented to address homelessness, these services are often not designed to target chronic homelessness and subsequently fail in policy implementation by engendering barriers to local homeless policy solutions. In the face of this crisis, Ungoverned and Out of Sight seeks to understand the political processes influencing adoption of best-practice solutions to reduce chronic homelessness in US municipalities. Drawing on unique research from three exemplar municipal case studies in San Francisco, CA, Atlanta, GA, and Shreveport, LA, this volume explores conflicting policy solutions in the highly decentralized homeless policy space and provides recommendations to improve homeless governance systems and deliver policies that will successfully diminish chronic homelessness. Until issues of authority and fragmentation across competing or misaligned policy spaces are addressed through improved coordination and oversight, local and national policies intended to reduce homelessness may not succeed.
