[Just in Time Inventory System | Kanban Zone](#)

Kanban is a concept that relates to obtaining materials or required items "just in time" for their introduction into the assembly or process. The system of JIT or the just in time process was initiated by the Japanese firm Toyota in the 1940s. Kanban is a system to signal a need for action. This can be done by cards on a board (which is the traditional way) or by other devices that are used as markers, indicating the need to take action.
