RigPix Database - Kenwood/Trio - TS-480HX

The TS-480SAT delivers up to 100 watts. The 200W TS-480HX features two power terminals (DC1, DC2) for separate supply to each half of the twin final section; voltage balance is optimized to ensure stable output. This arrangement allows for use of two PS-53 power supplies or a single 41A power source. When used for extended periods, the heat build-up inside a compact transceiver can be a serious concern, reducing its working life.
