Logical Increments PC Buying Guide

These are Logical Increments' picks for the best Black Friday Week 2020 deals from Newegg. The year 2020 has been very turbulent, and many people are working from home these days. For those of us wanting to upgrade our PCs (or buy completely new ones), Black Friday and Cyber Monday represent the best times to get the best deals on PC hardware.

Logical Increments Blog - The PC Buying Guide, Maximum ...

On the right-hand side of the parts list is the total price of all the top-row items in that tier. Logical Increments starts at the lowest possible price for a PC that is still reasonably useful, and goes all the way up to an extreme setup that would satisfy the most hardcore PC builders.

Logical Increments, the PC Builder's Friend

This was what prompted me to compile the Logical Increments PC buying guide. The guide has a list of PC builds, each with a descriptive name, ranging in price from less than USD\$300 to over USD\$2000. Each tier is slightly better than the one before it, either by having more powerful components, or higher quality components.

AMD and Intel have been the desktop CPU duopoly for as long as we can remember, with the mantle of "best CPU manufacturer" having been worn by both. From about 2005 to 2017, Intel was king. AMD's Ryzen series began stealing the multi-threaded marketshare with the launch of a large number of high-core-count CPUs at a moderate price.
