"It was pure joy to read and edit What You Don't Know by Bianca Sloane. Alternating between the violence unfolding at the Gilbert's and investigative interviews with their friends and family, Sloane transports us into a terrifying, brutal home invasion while constructing a brilliant plot that reads like an episode of Dateline. I was mesmerized and petrified through every page. Masterful and gripping, this is a suspense novel that any thriller lover will devour."

Length: Full-length novel of 94,000 words
Sensuality level: A hot Regency romance with steamy love scenes Q & A with the author How would you describe this series? It's Regency England with a dash of magic. I hope to take readers on a journey from the glittering ballrooms of the aristocracy to the dark underbelly of Regency England – with passion, danger, adventure, romance, and a little magic thrown into the mix. Why did you write this series? I wanted to get my well-bred heroines out of the drawing rooms and put

Where To Download Missing You A Companion Novella To Every Breath You

them in the way of adventure and romance. But I didn't want to write a series where magic is common; I wanted to write a series where only a few characters have magic, and it's a deep, dark secret, and no one else knows. How would you describe your writing? Several reviewers have likened my writing to Georgette Heyer, which is the hugest compliment ever. I adore Georgette Heyer! She's why I write historical romance, and I reread her books over and over. (If you've not read *The Grand Sophy*, please do so!) I've also had readers compare my writing to Courtney Milan and Mary Balogh, which are

Where To Download Missing You A Companion Novella To Every Breath You

also massive compliments. Who would like this series? This series will appeal to readers who enjoy the historical backdrop of Georgette Heyer and Jane Austen, the emotion of Mary Balogh and Courtney Milan, and the magic of Patricia Rice and Mary Robinette Kowal. Quite a broad range, really! What order should I read the series in? Each book, whether a novel or novella, can be read as a standalone, but many readers prefer to read them in order. And although the series is set in Regency England, a quartet of medieval novellas form the prequel. The ideal reading order would be: The Fey Quartet (series

CONSTANTINOPLE, 1845 Amir Qureshi knew his life would never be the same the day he met Naděžda Ollerton-Cerná, much to his chagrin. With her sharp wit and brazen charm, Naděžda is as infuriating as she is irresistible, and Amir cannot stop himself from falling in love with her—even though they can never be together. As an ally to the Order of the Crystal Daggers, under the command of Naděžda's indomitable mother, Amir knows there is no place for love in the life of a spy. When they are sent to Constantinople to investigate a missing shipment of weapons, Naděžda's life is endangered, and Amir races

To save her, knowing he cannot deny his heart any longer. But Amir is not the only one who is keeping secrets ... FROM THE BOOK: "Miss Eleanor." The desperation in his voice was only matched by his irritation, and the moment he said anything, Amir feared he had inadvertently given himself away. The sapphire eyes he had come to both love and hate twinkled mischievously at him. "Why, Mr. Qureshi, I do believe you're quite flustered. Especially if you're going to use your manners. Where are those mongrel ways of yours? I might mistake you for a real gentleman with such a formal tone." Her

Typical, teasing voice did nothing to lighten his mood; rather, it plucked at his heartstrings with a bittersweet twang, and Amir had to force himself to remain still as he stared down at her. It would do nothing for his case if he showed any further sign of compromise, especially now that his partner sensed his weakness. "It is only proper I address you as such, Miss Eleanor," Amir said, keeping his voice stripped of all his conflicting emotions. "Your mother, Her Grace, would be the first to agree with me." At the mention of her mother, her gaze only grew bolder. "We both know my mother's

Favorite thing in the world is being a hypocrite,” she said, crossing her arms and tapping her toe. “Call me Naděžda, as I’ve told you to before several times now.” Inwardly, Amir groaned. He should have known better than to say anything. If there was anything Eleanor Naděžda Ollerton-Cerná excelled at—and there was plenty—it was arguing with him. And while there was enough wrong with that in itself, it unnerved him how often he found himself losing those arguments. “Miss Eleanor, propriety demands—” “Is this my punishment, after all these years, to have you give me the same lecture I

gave you when we first met, Amir?" Naděžda asked, arching her brow as she pouted. Amir hated how he stared at her mouth. His Abba had always been so concerned about him looking into a woman's eyes that Amir never realized how sinful looking at a woman's lips could be. Even beneath her yashmak, the transparent veil worn by women on the streets of Constantinople, seeing Naděžda stick out her bottom lip was like watching a rose bloom under misty moonlight.
