For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

The Chainsaw Operator's Manual is an essential safety tool for chainsaw operators. It is the ultimate guide to basic chainsaw operating techniques covering safety, maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw.

Relates the history of the tractor and shows the changes in design that have resulted in the diesel-powered giants of today.

"Reset Your mysterious 'Mental Thermostat' that is responsible for all success (and failure). Do you find yourself on the edge of succeeding at something and then all of a sudden everything falls apart? Have you struggled for years with the knowledge that you have at least as much on the ball as many others who have succeeded, but you're still mired in mediocre results? Do you come up with some great ideas that you know could change your life but you never seem to get started on them? Are you working harder but can't seem to make any progress? If you answered yes to any of those questions it's almost certain that you don't know the magic of believing. It's the almost super-human power that turns otherwise ordinary people into billionaires, sports stars, Hollywood celebrities, political leaders and superstars on the stages of the world. This new, groundbreaking book from goal setting expert and renowned speaker and author Vic Johnson will teach you step by step how to believe in yourself. And when you do, the Universe is forced to believe in YOU!"--P. [4] of cover.

Discover how the scientist Bruce Banner becomes the green giant known as the incredible Hulk! Ready-to-Read books offer children a world of possibilities at three different reading levels. Level 1: Starting to Read Simple stories, building vocabulary, basic sentences. Level 2: Reading Independently More-challenging stories, varied sentence structure, paragraphs and short chapters. Level 3: Reading Proficiently Complex stories, rich vocabulary, longer chapters.

Tractors of the World is a comprehensive guide to more than 220 of the best-known tractors produced throughout the world over the last 120 years. It is illustrated with more than 400 color and black-and-white photographs and artwork; cutaway illustrations; and comprehensive specifications give technical and engineering information.

Advocates the "salad bar beef production model" that is supposed to be "land and farmer friendly."

Starting with an introduction about discovering the coal-burning paddle steamers of the Humber in the early 1970s the book continues with a brief history of the ferries of the Humber Estuary, the coming of the first paddle steamer, the Caledonia, in 1814 and the rapid expansion of steamers operating on the estuary. It includes personal memories of those who worked on, used and loved the Humber ferries. It especially looks at the paddle steamers, Tattershall Castle, Wingfield Castle and Lincoln Castle, which became the last coal-burning paddle steamers operating a regular service in the United Kingdom. An appendix lists over 80 paddle steamers from the Caledonia of 1814 to the last of the line the Lincoln Castle identified as working on the Humber Estuary from published and archive sources. It includes the diesel powered paddle vessel Farringford which saw out the service in 1981 and also other vessels associated with the Hull to New Holland ferry.

This collection of paintings of the western wilderness and the accompanying text invite the reader to see the natural world through the eyes of Native Americans.
