Vampires aren't real, right? People say I'm a weirdo. Sure, my idea of a party is a mini box of wine and hanging out with a feral raccoon, but it works for me. When I'm accused of murder, things get crazy. One, I learn that I have magic. Two, there's a secret magical city hidden right in London itself. And three, my only hope is a vampire who's sexy as sin and scary as the devil himself. He's called the Devil of Darkvale, and he all but owns Guild City. Some say I should just quit and turn myself in. Not a chance. I'm going to solve this murder myself, which means surviving in a new world of witch parties, magical guilds, and a vampire with a tortured past. The vampire and I are like colliding stars, and the heat is irresistible. I should avoid him, but if I want to save my own life, he's my only hope.

Alexa O'Brien has never been like other people. A hunter of supernatural rogues, she's a werewolf with unusual but extraordinary power. Power that fiercely draws her to Arys, a mysterious vampire who awakens her dark side. What they create together is dangerous and binding, forcing her to question the source of her abilities. She risks losing her remaining humanity as well as the one man she dares to love. When Alexa's womanizing former lover and pack Alpha is framed for murder, he turns to her for help. She would like nothing more than to watch karma at work but as the body count rises, long buried secrets are exposed. Alexa is forced to face the painful truth that not everyone is who she thinks they are. Not even her.

Kita Nekai, on the run and the smallest of her shifter clan--a calico cat among lions and tigers--is being hunted. She was expected to accept her role as her father's successor whether or not her cat was up to the task of leading the clan. She disagreed. Now she's less than a step ahead of the hunters, bone-tired, cold, and living hand-to-mouth in the city of Haven. And that's the high point of her day. She's also drugged, "accidentally" turned into a vampire, and sentenced to death for recklessly creating a rogue shifter who tortures its human prey. She's got seventy-two hours to find the rogue, evade a city full of hunters, prove she's not responsible for the rogue, and keep the vampire council from killing her. All while sorting out an apprentice mage, a married ex-boyfriend shifter-hunter, and the vampire who made her.

Bastian had to have been the most handsome man that Katherine had ever met. It really was unfortunate that he was also the most stubborn, controlling, downright infuriating jackass she'd ever known as well. Oh, and there was the fact that he was a werewolf - a werewolf who has bitten her. Sixteen-year-old Katherine Mayes had never believed in mythological creatures like werewolves or mermaids - certainly not those sparkly vampires that her friend Abby was obsessed with. Even when she's bitten by a massive animal after a reckless night of teenage adventure and her body begins to change in mystifying ways, she can't force herself to believe in what she's convinced is impossible. Little does she realize she's been infected with a disease a little more permanent than the rabies she feels fortunate to have not contracted. Lycanthropy. Her fierce denial is soundly shattered, however, when she is simultaneously saved and kidnapped by Bastian and his pack. Forced to leave small town Iowa behind and adjust to their way of life in a hidden society, Katherine must also deal with fighting the pull she feels towards the man - or wolf, rather - who has bitten her and disrupted her life so completely.

The gripping accounts. . . are all there, but the other half of the book is all about the journey Nigel has made since. . . and his refusal to disappear into the crevasses of self pity and helplessness.--Carolyn Budding.

I'm Jaz Parks. My boss is Vayl, born in Romania in 1744. Died there too, at the hand of his vampire wife, Liliana. But that's ancient history. Vayl and I have to take out a Miami plastic surgeon with ties to terrorism. But the assignment gets complicated when it turns out he's in cahoots with a supernatural nasty powerful enough to bring America to her knees.

"The dragon's blood that saved her had one little unforeseen consequence--it turned her into a vampire. Leslie always wanted to be number one at something, and the Readers' Cruise was her chance to make a big splash into the romance writing world. Until she fell into the Atlantic Ocean. With her life hanging in the balance, it would take a miracle to save her from death's icy grip. That miracle is Alistair McLeod, a handsome dragon-shifter, who shouldn't exist. But now she's counted among the living dead. Marked and hungry, Leslie awakens as an unwilling vampire and a new member to the Order--the supernatural security force for a secret society of the shadow world. The Order of the Dragon series is best enjoyed when read in reading order. 1. Zero Hour: Prequel 2. Once Bitten 3. Twice as High 4. Three Little Words "

Thrills, chills, and a smoldering sexy hero combine to unforgettable effect in Bianca D'Arc's irresistible new novel of paranormal romance. . . When police officer Sarah Petit investigates a disturbance in an abandoned building, she expects to find a few underage drinkers. Instead, she's attacked by creatures straight out of a horror movie. Waking a week later in a hospital, Sarah is visited by Special Forces soldier Captain Xavier Beauvoir. But his smooth Cajun accent, whiskey-colored eyes, and dizzying kiss are risky to her in a very different way. Sarah attracts danger like a magnet--and the smart, fearless cop attracts Xavier too, instilling a bone-deep need that's undermining his steady façade. Enlisting her aid is a necessary gamble, but vicious undead creatures are not the only enemy they face. As a psychologist for the Los Angeles police department, Jamie Beaverbrook has seen it all. Or so he thinks until the night a full moon brings out the crazies, including Terry Ferriman. Trouble is, Terry isn't exactly crazy. But how else can the police explain finding the girl in an alley off Sunset, crouched over a man's lifeless body, her mouth smeared with blood? After an interview that is unsettling at best, the good doctor decides to dig deeper into Terry's story. What he discovers is that a world he previously imagined to exist only in horror movies is actually flourishing in the shadows of L.A. Vampires are real, walking among - and feeding on - humans every day. Beaverbrook knows he should be frightened, but his fascination with Terry is all-consuming. And when he realizes that a shadowy government organization has captured several vampires, including Terry, Beaverbrook must decide just whose side he is on...
