Ribe Electrical Fittings Optofit - trattorialabarca.it
RIBE-OPTOFIT\u2122 fittings are specially designed to allow for the pressure sensitivity of optical fibers. The radial loads are distributed over large contact areas so that the necessary forces for holding the fiber optic cable are achieved without overloading the fibers. Our sophisticated damping concepts prevent damage to overhead cables

A screw drive is a system used to turn a screw. At a minimum, it is a set of shaped cavities and protrusions on the screw head that allows torque to be applied to it. Usually, it also involves a mating tool, such as a screwdriver, that is used to turn it.The following heads are categorized based on frequency, with some of the less-common drives being classified as "tamper-resistant".

List of screw drives - Wikipedia
