The Bean Trees refers to the name that Taylor Greer's adopted, vegetable-loving daughter Turtle gives to wisteria trees, a member of the bean family (Fabaceae) that produces long, bean-like seed pods. The symbiotic relationship between wisteria trees and rhizobia, microorganisms that live in the root system and form an invisible supportive network for the tree, provides a metaphor for the network of friends, neighbors, and fellow refugees that support Taylor and Turtle in their life together.

The Bean Trees. Traditionally, American society has defined "family" as "nuclear family"—a father, a mother, and children living together. The biological mother is often viewed as the natural caregiver, and the father is viewed as the provider. How does this novel ask us to rethink our definition of family and how does it suggest alternative role models in place of or in addition to the biological mother?
