humanist perspective focuses on looking at human beings in a holistic way. Rather than focusing on dysfunction, humanists take the view that people are innately good and possess an actualizing tendency that leads them to pursue self-actualization.. Those who take a humanist perspective emphasize the importance of free will and

The Perspectives of People with Dementia:
Research Methods ...

People with dementia have often played a

Read PDF The Perspectives Of People With Dementia

passive role in the investigation of their condition. The contributors to this book look at ways of redressing the balance and involving them in the research process. They describe the skills that researchers and care staff need, and the methods they can use, when seeking to draw out and validate the views of people with dementia
